**Summary of reasons
for classification:**

The console game entitled *Bully: Scholarship Edition* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 13 years.

The console game was originally examined by the Office of Film and Literature Classification under the title *Canis Canem Edit* and classified "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 13 years", with the descriptive note "Contains violence" (OFLC No. 501970 registered 12 September 2006). The console game *Bully: Scholarship Edition* is identical to the game previously examined except for 8 in-game missions with accompanying cut scenes, and approximately 14 short multiplayer and mini games. These extra components include some brief matters of crime and violence of a similar level to those in the original game but do not require the game to be given a different classification.
